

Der mit sinkendem Abstand gr&#246;&#223;te Batteriespeicher der Welt steht auf dem Gel&#228;nde eines gr&#246;&#223;tenteils stillgelegten Gaskraftwerks in Monterey County im US-Bundesstaat Kalifornien.

Der mit sinkendem Abstand gr&#246;&#223;te Batteriespeicher der Welt steht auf dem Gel&#228;nde eines gr&#246;&#223;tenteils stillgelegten Gaskraftwerks in Monterey County im US ...

Der Batteriespeicher mit einer Spitzenleistung von 150 MW dient vor allem dazu, die Netzfrequenz zu stabilisieren und sorgt dabei f&#252;r sinkende Preise am Strommarkt f&#252;r Endverbraucher.

On 14 September 2020, H.E. Filipe Nyusi, President of the Republic of Mozambique, Hon. Carlos Zacarias, the Minister of Mineral Resources and Energy and other distinguished guests officially inaugurated the Cuamba ...

The Ministry of Mineral Resources and Energy of Mozambique, funded by the German Government through KfW, has announced a tender for solar photovoltaic and battery energy storage projects, aiming to enhance the country's renewable energy infrastructure. Applications are due by September 13, 2024.

Mozambique wants to be a reference in the world market for electric vehicles. The government of this East African country is negotiating with the Japanese authorities to build a factory dedicated to the local manufacture of batteries. If the talks reach an agreement, the factory will be located in the province of Cabo Delgado.

K&#252;nstliche Intelligenz & Big Data: Durch den Einsatz von KI und fortschrittlicher Datenanalyse k&#246;nnen Batteriespeicher noch effizienter betrieben und gewartet werden. Algorithmen optimieren Lade- und Entladevorg&#228;nge ...

Tesla is turning towards Mozambique for a key component in its electric vehicle batteries. Analysts see this move by the EV major as first-of-its-kind to reduce its dependence on China for graphite. The company shared that it will buy the material from the company's processing plant in Vidalia, Louisiana, which sources graphite from its mine ...
