

Will Mozambique liquefied natural gas project be restarted?

Japan's Mitsui & Co is collaborating with TotalEnergies and the Mozambique government to finalise plans for restarting construction of the \$20 billion Mozambique liquefied natural gas (LNG) project, CEO Kenichi Hori said on Thursday.

Will TotalEnergies restart liquefied natural gas project in Mozambique?

TotalEnergies is set to restart its US\$25 billion liquefied natural gas (LNG) project in Mozambique's Cabo Delgado province, a critical milestone for the country's energy sector. Suspended since 2021 due to escalating insurgent violence, the project has now regained momentum following improved security conditions.

How much LNG will the Matola project bring to Mozambique?

The Matola project next to Mozambique's capital of Maputo will have the capacity to bring in 2.5 million tons of LNG annually, TotalEnergies said Monday in a response to emailed questions.

What is Mozambique's energy potential?

In this new age of industrialisation, Mozambique's energy potential places the country at the forefront of global energy investments. As it continues to develop its infrastructure and expertise in energy production, Mozambique is set to play a pivotal role in meeting future energy demands.

Will Mozambique liquefied natural gas import terminal help avoid a supply crisis?

(Bloomberg) -- TotalEnergies SE aims to next year approve an import terminal for liquefied natural gas in Mozambique that may help users in neighboring South Africa avoid a potential supply crisis. Gas shipments may flow from the Matola project by the end of 2027, according to Gigajoule, a partner helping develop the facility.

What is Mozambique's energy transition?

Mozambique's energy transition is based on four strategic pillars including: 1. Expanding clean energy expansion capacity through wind, hydroelectric projects and solar power plants to offset fossil fuels predominance; 2. Capitalising on green industrialisation through integrated projects around industrial corridors such as the Nacala corridor; 3.

Japan's Mitsui & Co is collaborating with TotalEnergies and the Mozambique government to finalise plans for restarting construction of the \$20 billion Mozambique liquefied natural gas (LNG) project, CEO Kenichi Hori said on Thursday.
