

Navitas EAS offer professional, cost effective solutions for all types of energy efficiency assessments. From SAP calculations and Energy Performance Certificates, through to Part G water efficiency calculations and air pressure testing.

Navitas Energy Inc is a leading renewable energy company based in the United States, with a focus on developing sustainable projects in the biomass and waste, as well as wind energy sectors. The company was founded in 2005, with a mission to provide clean, reliable, and affordable energy solutions that help reduce carbon emissions and promote a ...

Algeria's renewable capacity remains small, at around 460 MW. With huge, untapped potential for solar and wind energy, Algeria has for many years said that creating a home-grown renewable energy industry would allow it to meet rocketing domestic power demand, save gas molecules for exports and create jobs.

Navitas is an experienced Texas-based developer of power generation facilities having successfully developed, financed, and constructed 6 different power plants across six site over the last 7 years Site During Construction
