MBABANE - ESERA"s procurement processes of new generating capacity from independent producers, with the support from the Ministry of Natural Resources and Energy is proceeding. This comes after Eswatini Energy Regulatory Authority (ESERA) published its intention to award contracts to preferred bidders for 75MW solar PV generation capacities ...

Energy development in Eswatini is guided by the National Energy Policy of 2018. Since then, the country"s energy sector has been undergoing rapid transformation with the liberalization of the electricity sector to encourage private sector investment.

Eswatini"s energy stakeholders must work together to address challenges, ensuring that the country remains on a sustainable path while fostering economic growth and stability. The lessons from South Africa"s predicament should serve as a catalyst for Eswatini to take decisive action toward energy independence and sustainability.
