

What is enepaq tiny battery management system (BMS) 150A?

Check out our network of distributors. Battery Management System (BMS) 150A the Tiny BMS is an essential component of every Lithium battery. Enepaq Tiny BMS supports lithium batteries of any chemistry and up to 60 V nominal. Battery capacity from sub-1 Ah to 655 Ah can be managed easily.

What is enepaq tiny BMS?

Enepaq Tiny BMS supports lithium batteries of any chemistry and up to 60 V nominal. Battery capacity from sub-1 Ah to 655 Ah can be managed easily. Tiny BMS measures individual voltages of parallel cell groups and manages switching of load and charger.

How can enepaq help you?

Enepaq can tailor unique firmware and hardware BMS features to align with your unique project requirements. Looking to buy locally? Check out our network of distributors. Battery Management System (BMS) 150A the Tiny BMS is an essential component of every Lithium battery.

Enepaq Tiny BMS supports lithium batteries of any chemistry and up to 60 V nominal. Battery capacity from sub-1 Ah to 655 Ah can be managed easily. Tiny BMS measures individual voltages of parallel cell groups and manages the switching of load and charger.

BMS seems to be one of more difficult parts of the car and we decided to help out. Our standard BMS is for LV (16s) systems, however we will be offering an analog front-end for you to use as slave boards for data acquisition and cell balancing:

Battery Management System (BMS) for Your Lithium Batteries - Manufactured in Europe and CE-Certified. The Enepaq Tiny BMS s512 v2.1 is an advanced Battery Management and Control System designed for Lithium batteries, including Li-ion and LiFePO4. It optimizes performance, ensures safety, and extends the lifespan of battery packs.
