

As RHOFA ENERGY, we provide various power ratings (50 kW, 60 kW, 100 kW, 110 kW) of high-quality and high-performance grid-connected (on-grid) inverters from the global-scale, China-based DEYE brand, established in 2007, to meet our customers' needs.

The corporate culture created by more than 35 years of experience and knowledge, combined with the energy of its dynamic and young workforce, is embraced and sustained with a focus on sustainability by specialized Rhofa employees who love their work.

This event offered an excellent opportunity to discover innovations in the sector, establish new collaborations and keep up with the latest developments in the energy field. Last week, RHOFA ENERGY took part in the Energy Innovation Fair (EIF).

Rhofa Energy is an innovative renewable energy company established in 2020 in the 'erkezk'y Organized Industrial Zone with the aim of developing photovoltaic panels and solar energy production systems, as well as producing solar panels.

Rhofa Energy, an innovative renewable energy company founded in 2020 in the 'erkezk'y Organized Industrial Zone, was established to develop and manufacture photovoltaic panels and solar energy production systems as part of RHOFA GROUP.
