

Experience constant, reliable power with BLUETTI, the go-to home battery backup solution in New Zealand. Don't worry about outages; BLUETTI ensures uninterrupted electricity, keeping your home well-lit and your appliances running smoothly. Say goodbye to blackouts - BLUETTI is your dependable partner for seamless energy backup in NZ.

Yes, you can use a solar battery to power your home during a power outage if it is designed to do so. Many solar batteries are equipped with a feature known as "backup power" or "emergency power" which enables them to provide electricity during a blackout.

Powerwall 3 can deliver up to 11.04 kW--double the output of Powerwall 2. At peak times during the day when you're using lots of power, Powerwall 3 allows you to run more appliances simultaneously. In most cases, each unit has the storage capacity and efficiency to provide backup power to an entire home. Active Thermal Management

A simple, environmentally conscious, and cost-effective method to safeguard your home's power supply, we have just what you need. Our home battery backup solutions offer generous output power and capacity, enabling you to power up to 99% of your household appliances seamlessly.

Powerwall can power your entire home with one unit, making whole-home backup protection more affordable. Each unit is self-contained with an integrated solar inverter for added efficiency, resulting in fewer parts and faster installation.
