SOVENTIX SA, a subsidiary of SOVENTIX GmbH, an internationally active project developer and EPC of solar power plants, has completed the construction of a 998.4 kWp photovoltaic plant in Midrand ...

Soventix is a company that provides solar energy solutions. It specializes in developing, financing, constructing, consulting, and operating solar parks and plants for institutions and companies. The company also provides engineering, monitoring and remote operations, procurement, project management, and other services.

Originally conceptualised by Soventix, the solar farm project was developed for an unsuccessful REIPPPP bid. The developer subsequently sold the rights to the project for Phase I of a cluster development (for 342MW) to SolarAfrica, which will now finalise the beginning of its wheeling project to multiple off-takers.. Soventix will co-develop the second and third ...
