

Who is Zing energy?

We are also one of the country's leading experts in the Government's Eco Scheme. We will unlock the grants needed to save you money. Now five years old, Zing Energy was launched in Cardiff by two founders; Martin Thomas and Chris Jenkins.

Why is Zing so important?

They were frustrated with the lack of affordable energy provision out there and realised millions of householders and businesses were missing out on energy grants to keep their bills low. Since then Zing has helped thousands of householders warm their homes and cut their bills.

How can Zing help you reduce your energy bills?

Since then Zing has helped thousands of householders warm their homes and cut their bills. Making affordable energy saving solutions and expertise a reality for every household and business in the country, reducing fuel bills and helping the UK hit its carbon reduction targets.

Does Zing offer a free energy audit?

Zing offers all of its customers a free and comprehensive energy audit. This will analyse your home or businesses' energy use to work out the best way to conserve energy and find the right energy saving service for you. Very pleased with the final job done. Ben and Howard was brilliant, with good work ethics.

Providing bespoke energy saving solutions for both private and public sectors. We will find you the right solution for your home or business - maximising your energy efficiency, reducing your bills and lowering your carbon footprint.

This project aims to enable Niue to generate 80% of its electricity from renewable energy by December 2025. Just over a month ago, the Prime Minister of New Zealand, Rt Hon. Christopher Luxon announced a substantial investment of \$20.5 million into renewable energy initiatives in Niue.

With the upcoming reintegration of the BESS and solar farms by December, Niue is poised to move closer to its goal of 80% renewable energy production by the end of 2025. The Ministry now has both old and new power stations available to ensure consistent energy delivery to all communities.
