

Who is Nomo Group Ltd?

Nomo Group Ltd has over 10 Years of Solar Street Light and solar energy system industry experience. Our current best-selling solar products are Hyperion and IRobot self-cleaning solar street light; a suite of solar energy for residential and commercial usage, smart cities solar pole.

Who is Nomo?

Nomo is leading solar street light manufacturer, All solar products are patented and designed to meet market demand. Nomo Group Ltd has over 10 Years of Solar Street Light and solar energy system industry experience.

Who is Nomo lighting?

NOMO specializes in developing and manufacturing customized solar outdoor LED lighting systems for a wide range of lighting applications over 13 years. We provide cost-effective, industry-leading, and proprietary solar lighting solutions for commercial, residential, and industrial projects. Nomo Group was founded on April 4, 2010 by Wanjun Wang.

Where are Nomo solar power systems installed?

Our products have been installed in South East Asia, Africa, the Middle East, Australia, UK, North America, and Latin American Countries with years of successful performance. NOMO wants to become the number 1 professional manufacturer of solar power systems and solar lighting equipment in the world.

How do I contact solarnomo?

Call us today: +84 78 336 9059 or Email us: sales@solarnomo.com What is a solar LED light? Solar LED is a type of lamp that is composed of a crystalline silicon photovoltaic panel (power source), smart controller (smart controller), lithium battery, lead acid (reserve source) and other components. other.

Who is the leading solar street light manufacturer?

Nomo is leading solar street light manufacturer since 2010, We have complete range of series available in solar street light.

Solar LED lights use energy absorbed through solar panels to convert into electricity, thereby helping users optimize use efficiency and save electricity costs. Products using solar panels ...

With more than 10 years of expertise in the solar street light industry, NOMO has become a leading global solar PV pole lights, stand-alone solar smart street light, solar induction street light manufacturer and worldwide supplier.

With more than 10 years of expertise in the solar street light industry, NOMO has become a leading global

solar PV pole lights, stand-alone solar smart street light, solar induction street ...

The Story Of NOMO Solar Panel. NOMO is an enterprise that has been adhering to the concept of creating mid-to-high-end solar street light products and advocating environmental protection technology innovation. After understanding the trend of technological development, combined with the problems of solar street light products on the market, we ...

The Nomo solar street light features a patented design using high-efficiency Bridgelux chips, delivering up to 220 lm/W. It includes a 40° adjustable angle module and a 35° adjustable bracket, along with 140° light-emitting lenses for greater coverage. ...

NOMO's NEW generation solar off grid Home system "POWERWALL" uses high efficiency mono/poly solar panel, in-built LiFePo4 battery, patented MPPT controller, converting the solar energy to electricity power with high efficiency up to 24%, and store it into the energy pack. The Low voltage design ensures safety, easy installation and can be ...

NOMO's NEW generation solar off grid Home system "POWERWALL" uses high efficiency mono/poly solar panel, in-built LiFePo4 battery, patented MPPT controller, converting the solar energy to electricity power with high efficiency up to 24%, and store it into the energy pack.

Solar LED lights use energy absorbed through solar panels to convert into electricity, thereby helping users optimize use efficiency and save electricity costs. Products using solar panels are a clean source of energy, especially effective when used in climatic conditions and high hours of sunshine like in Vietnam.
