

# Norfolk Island cost of solar panels for home

How many solar panels are there in Norfolk Island?

44 km of high and 44 km of low voltage cabling. Distributed household rooftop PV systems. There have been more than 555 small-scale solar power systems installed on Norfolk Island, with a collective capacity of 1,770 kW. That's pretty impressive given its remoteness and a population of 1,849.

Does Norfolk Island have too much solar energy?

That's pretty impressive given its remoteness and a population of 1,849. But this uptake has also caused some headaches in managing Norfolk Island's electricity network, with too much solar energy goodness generated at times. The Tesla battery system installed in December 2020 has helped out on that front.

How much energy does Norfolk Island generate a year?

Based on a conservative average of 7,139 kWh of energy production a day (enough to power the equivalent of 446 homes) and retail electricity costs of 0c per kilowatt-hour; Norfolk Island and 2899 postcode area residents are collectively generating \$0 of energy at retail prices a year!

How much do solar panels cost per square foot?

On average, solar panels cost \$8.77 per square foot of living space, after factoring in the 30% tax credit. However, the cost per square foot varies based on the size of the home. For example, the post-tax credit cost of solar panels for a 2,500-square-foot home is around \$20,000 for a rate of \$7.96 per square foot.

Is Norfolk a good place to install solar energy?

Located in the Tidewater region, Norfolk is a prime destination for solar energy enthusiasts. With its rich history and commitment to sustainability, Norfolk offers exceptional opportunities for solar installation and harnessing renewable energy.

How much solar irradiation does Norfolk Island experience?

Norfolk Island experiences solar irradiation levels reaching approximately 4.81 kilowatt-hours per square metre per day on average over a year. The following graph shows solar irradiation/output levels per kilowatt of installed solar panels in the 2899 area per month.

About solar panel installations in the Norfolk-island area. Below is some basic information about solar energy in Norfolk-island. Roughly 21% of the households around Norfolk-island have solar panels on their roofs, according to data from the Australian Photovoltaic Institute (APVI) The average size of a solar energy system in Norfolk-island is ...
