

Shaper's Union. The Pro-9 is a Shaper's Union creation, a collaboration between NSP and world-class shapers like Carl Schaper. Established to bring new energy and high-performance to the surf line-up, Shapers Union is NSP's way to showcase the incredible skill and talent of some of the most accomplished shapers in the world.

Innovative software solutions tailored to the energy industry enhance operational efficiency, sustainability, and cost-effectiveness by offering energy management, grid optimization, renewable solutions, and predictive maintenance tools utilizing IoT, cloud computing, and advanced data processing.

VARO Energy Group ("VARO") and Groupe E, companies active in the energy transition, announced today that they will build the most powerful ground-mounted solar facility in Switzerland. 19,000 photovoltaic panels will generate a significant portion of electricity consumed by Switzerland's only refinery, located in Cressier.

For beach racing, buoy racing and the ability to pull off consistent kick turns in the middle of a race, the NSP Surf Race 20 is the more appropriate fin. Or in Travis's words; it's the fin better suited for turning and surfing. Designed by Alain Teurquetil, Trent Pedersen, Titouan Puyo and Travis Grant, the Surf Race 20 is the final result of several iterations being developed parallel ...

Switzerland's most powerful ground-mounted solar facility to be built in Cressier (NE) VARO Energy Group ("VARO") and Groupe E, companies active in the energy transition, announced today that they will build the most powerful ...

Switzerland's most powerful ground-mounted solar facility to be built in Cressier (NE) VARO Energy Group ("VARO") and Groupe E, companies active in the energy transition, announced today that they will build the most powerful ground-mounted solar facility in Switzerland....

The Overdrive HDT is a Shaper's Union creation, a collaboration between NSP and world-class shapers like Tully St.John. Established to bring new energy and performance to the surf line-up, Shapers Union is NSP's way to showcase the incredible skill and talent of some of the most accomplished shapers in the world.

(Energy Analytics Institute, 27.Nov.2024) -- Energy briefs as well as others related to finance and projects during Nov. 2024 including Woodside Energy saying work on 27/11/2024 27/11/2024 Latin America and the Caribbean Mexico North America USA

VARO Energy Group ("VARO") and Groupe E, companies active in the energy transition, announced today that they will build the most powerful ground-mounted solar facility in Switzerland. 19,000 photovoltaic ...

Explore our energy efficiency solutions for renewable energy optimization, sustainable energy management, and green energy technology. From energy conservation strategies to smart energy systems, discover how we can optimize your energy usage at NSP Global Tech

The Butter Knife is a Shaper's Union creation, a collaboration between NSP and world-class shapers like Carl Schaper. Established to bring new energy and high-performance to the surf line-up, Shapers Union is NSP's way to showcase the incredible skill and talent of some of the most accomplished shapers in the world. Carl's philosophy

The city of Cressier has taken a significant leap towards renewable energy as Switzerland's most powerful ground-mounted solar facility was commissioned. Sprawling over an impressive 47,000 square meters, the ...

NSP is a solar power company that cares about the environment and provides clean energy. Our 30MW solar power plant, located at Wet Toe Village and Han Zar Village Tract, Thazi Township, Meiktila District, Mandalay Region, Myanmar, is proof of our commitment to renewable energy.

Energy consumption per capita has been declining in Switzerland for years: although the population grew by 28.7% between 1990 and 2020, energy consumption decreased by 5.9% during the same period. Most energy consumed in Switzerland is in the form of petroleum and motor fuels (43%), followed by electricity (26%) and gas (15%).

Peer-to-peer (P2P) energy trading facilitates both consumers and prosumers to exchange energy without depending on an intermediate medium. This system makes the energy market more decentralized ...

Zug, 13th January 2022 - VARO Energy Group ("VARO") and Groupe E, companies active in the energy transition, announced today that they will build the most powerful ground-mounted solar facility in Switzerland. 19,000 photovoltaic panels will generate a significant portion of electricity consumed by Switzerland's only refinery, located ...
