

Carib Sun Energy is your local full service residential & commercial solar provider. When you decide to switch to solar, we take care of every step; including engineering, permits, installation and ongoing monitoring of your system ...

OFF GRID. With off grid power you are your own electric company because your energy system isn't connected to the utility power grid. When the sun shines you store excess electricity in batteries and use it when the sun is not visible. An off-grid inverter can convert the DC energy from solar panels and batteries into AC electricity which ...
