

We develop commercial power purchasing agreements, provide accurate forecasts of power usage and long term savings, and advise on finance options before installing renewable energy technology that works for you.

Olympus Power, LLC is a privately held U.S. independent power company based in Morristown, NJ, which owns and manages power plants that sell electricity and thermal energy to utilities and industrial concerns. Our firm maintains full or partial equity interests in these projects in order to optimize these assets by better aligning interests.

Our primary strategy focuses upon the acquisition of operating assets and projects in varied stages of development, through negotiated transactions and select auction processes within North America. Olympus invests in existing energy-generation assets with a target investment size between \$5 million to \$100 million per transaction.
