

The Wall Street Journal reported Wednesday that skepticism seems to be building around Omnis Energy, a startup that secured \$200 million in funding from motivational speaker Tony Robbins two years ...

Omnis Energy says it uses a process that subjects coal and methane gas to extremely high temperatures in the absence of oxygen -- nearly half the temperature of the surface of the sun -- breaking it into hydrogen and graphite through pyrolysis. The company's "quantum reformer" is seen Sept. 9, 2024 during a tour of its pilot project at ...

Depending on your current asset allocation and investment needs, the best energy ETFs in Canada can be a good addition to your investment portfolio. Energy is one of Canada's largest sectors. In 2022, the industry accounted for 11.8% of Canada's GDP and employed over 293,000 people.

What are the key differentiators of the proprietary Omnis technology OQR(TM) (Omnis Quantum Reformer(TM))? Modular design eliminates costs and challenges of hydrogen transportation and storage. Hydrogen production costs are significantly lower (>90%) compared to currently available alternatives such as electrolysis.

Rich Hulme, president and chief operating officer of Omnis Energy, and Tony Robbins, global entrepreneur and philanthropist who has invested in the pioneering work at the local plant, discuss the status of the project prior to a demonstration Friday. Simon Hodson, founder and chairman of Omnis Energy, said the successful demonstration of the

The Pleasants Power Station at Willow Island, WV, broke ground in August 2023 and is expected to be operational by 2025. By explicitly retrofitting the power station, we preserved over 1200 local jobs while creating new opportunities for ...

PENN VALLEY, PA, UNITED STATES, September 24, 2024-- Omnis Energy is transforming an old, coal-fired power plant in Pleasants County, WV into the world's first commercial coal-to-hydrogen net-zero power plant with high-value graphite co-products mid-August 2024, Omnis Energy demonstrated the operation of its patented Quantum technology at the Pleasants site, ...
