

Will Belize Electricity compensate you for excess solar energy?

The hope is that through regulations, Belize Electricity Ltd will have to compensate you for excess solar energy flowing to the grid during the day and off-set it against the electricity you are drawing from the grid at night; however, the reality today is the opposite.

Is a grid-tie Solar System a viable option?

If your monthly electricity bill exceeds BZD 500 and your energy consumption is mostly during the day, then adding a grid-tie solar system with or without battery back-up is more economically viable than going completely solar off-grid. Will my grid-tie solar system stay on during a grid outage?

What should I do if a storm hits my Solar System?

SESB recommends removing any debris, loose material, or other equipment that could move or become airborne during a storm and potentially damage the solar system, structure or people. - Recommended system shut down by or before projected landfall. - Turn system back on when All Clear is given.
