

Following this phase, a new Haitian corporation, Sirona-Haiti, will raise venture capital to manufacture 4500 systems in five years to light up the homes of at least a million of the 8 million ...

Our knowledgeable energy consultants will work with you to design a residential solar energy system to meet your energy needs, financial goals, and architectural style. Purchasing a commercial solar system is far more than a commitment to ...

Now, Okra Solar's specialised hardware and software is now being used to address the energy access struggle in Haiti, Nigeria, Cambodia and the Philippines. The company's latest project in Dulagon, Haiti, is part of a phased scale-up that could potentially reach a further 4,700 households within the country - representing a positive leap ...

In 2021, the first Okra Solar mesh-grid was deployed in the country by the Haitian energy developer: Alina En&#232;ji. The project connected 35 rural households in rural Dulagon with reliable and affordable energy access for the first time.

Our knowledgeable energy consultants will work with you to design a residential solar energy system to meet your energy needs, financial goals, and architectural style. Purchasing a commercial solar system is far more than a commitment to sustainable energy, it is an investment that will pay for itself through the savings on your electrical bill.

Ouraset follows the most state-of-the-art technology in the production of solar water heaters. Ultrasonic and laser welding of solar absorbers and fully automated tank welding lines are only a few examples. Continuous improvement of production and quality assurance techniques are sustained by constant training at OURASET production facilities.
