

Does OutBack Power offer a year-end discount?

OutBack Power (TM) is offering year-end discounts on our most popular charge controllers, inverters, and pre-wired power systems including the FLEXmax charge controllers, Radian inverter/chargers, FXR/VFXR inverter/chargers, mobile inverters, and FLEXpower(TM) pre-wired inverter systems.

Does Morocco need a coal power plant?

Morocco relies particularly heavily on coal power, which it is expanding along with renewables, and around 40% of electricity in the country comes from coal. However, at the COP26 climate conference in Glasgow this month, Morocco was among the 20 countries who made a new commitment to building no new coal power plants.

How much energy does Morocco produce from renewables?

Production of energy from renewables lagged behind a little, at closer to 20% of the country's total in 2019. But the country has come a long way. Morocco has since pledged to increase the renewables in its electricity mix to 52% by 2030, made up of 20% solar, 20% wind and 12% hydro.

Does Morocco need solar power?

And even as it seeks to end its dependence on fossil fuels, its energy demands are rising fast. Despite these challenges, Morocco has a huge natural potential to produce solar, wind and hydropower, and has taken significant steps to realise it.

Is Morocco a climate leader?

Morocco has made a name for itself as a climate leader. Renewables make up almost two-fifths of its electricity capacity, some fossil fuel subsidies have been phased out and the country lays claim to some of the world's largest clean energy projects. The country has received much praise for its actions to decarbonise.

OutBack Power designs and manufactures off grid and grid connected solar plus storage systems for energy independence. Whether you need a solar inverter, solar battery, or other renewable ...
