

OxDrive is a leading supplier of extremely durable, high torque electric hubs (e-hubs) for agritech use. OxDrive e-hubs range from 250Nm to 3200Nm, and are unique in their full integration of motor, motor controller, gearbox and park brake.

Originally built for the demanding film and post production organizations, OxDrive has been adopted by many professionals and industries that demand security, aesthetics, and speed for the large files we deal with today.

OxDrive e-hubs provide the speed, torque and durability needed for the exciting new generation of electric off-highway vehicles. Our e-hubs have been designed as an integrated solution, engineered to operate over extended periods in demanding environments.

Unique in their durability, torque and compact size, OxDrive e-hubs offer the very best performance whilst reducing R& D and component cost. OxDrive e-hubs are an essential system for electric autonomous vehicles, enabling the drive towards Net ...
