

Italy's Enel SpA (BIT:ENEL) has commenced construction of a 26.24-MW solar park in Panama's province of Chiriqui. The company, through Enel Green Power Panama (EGPP), said today that the Esperanza photovoltaic (PV) solar plant is expected to be up and running in the first half of 2021.

Madre Vieja will consist of 68,220 solar panels and be able to generate 48.68 GWh of electricity per year, enough to offset over 12,574 tonnes of carbon dioxide (CO<sub>2</sub>) emissions annually. Together with the 13-MW Jaguito and the 26-MW Esperanza solar farms, Enel Green Power Panama (EGPP) has invested a total of USD 130 million (EUR 109.5m) in ...

Enel Green Power, the renewable energy subsidiary of Italian energy giant Enel, has begun construction of the Estrella Solar PV plant in Panama. The project will be realized thanks to an investment of approximately \$8 million and will be connected to the grid in June 2018, the company said in a statement.

Peimar is an Italian company specialised in the design, research and production of high efficiency photovoltaic modules. Our constant technological innovations guarantee us a deep knowledge of the sector. Therefore, Peimar offers top performing photovoltaic panels, made to the highest quality standards and bearing the 'Made in Italy' mark.

Italian solar inverter company Elettronica Santerno announced on Wednesday that it has signed two contracts to supply total of 20 MW of inverters to projects in Panama. The transactions also include Power Plant Controllers and all monitoring systems for connection to ...
