

Who is unigrid battery?

SAN DIEGO, Dec. 19, 2023 /PRNewswire/-- UNIGRID Battery, a University of California, San Diego spin-off startup company, announces that it has received its first commercial MWh-scale purchase orders for their advanced sodium ion batteries.

Are unigrid batteries safe?

UNIGRID's sodium-ion batteries are unlike any other. Built in safety. For peace of mind. Third-party tested for safety, you will not find a safer sodium-ion battery with comparable performance. Our sodium-ion batteries do not undergo thermal runaway.

Will unigrid deliver advanced sodium ion batteries in 2024?

Erik A. Wu, CTO of UNIGRID. Third party testing and validation on the advanced sodium ion batteries has been completed, and UNIGRID is on track to deliver MWh quantities of its advanced sodium ion batteries to customers in 2024.

What is unigrid's sodium-ion battery technology?

Discover UNIGRID's sodium-ion battery technology that combines safety, performance, and sustainability. Our innovative batteries use abundant resources to deliver efficient and powerful energy storage solutions for a cleaner, safer world. Learn more and take the Sodium-Ion Challenge today!

Are unigrid sodium-ion batteries safe?

Take the Sodium-Ion Challenge. For a cleaner, safer world. The world needs clean, safe, easily accessible, and affordable energy storage. We've cracked the code on a solution: UNIGRID's sodium-ion batteries, which use abundant resources, are lower-cost, safer, and just as powerful as any other battery. Why UNIGRID's sodium-ion batteries?

Are unigrid batteries a "drop-in" solution?

UNIGRID batteries are a true "drop-in" solution. We use the same cylindrical and prismatic form factor as lithium-ion batteries, making a switch to our smarter, safer sodium-ion batteries seamless. Test the power of UNIGRID for yourself. Take the Sodium-Ion Challenge.

UNIGRID Battery, a San Diego-based startup developing advanced sodium-ion batteries, has announced a successful close of an oversubscribed \$12 Million Series A funding round. The financing was Co-led ...

UNIGRID Battery, a University of California, San Diego spin-off company, was founded in 2021 from the groundbreaking Ph.D. research work by Dr. Darren H. S. Tan and Dr. Erik A. Wu, who were both advised by Prof. Zheng Chen and Prof. Shirley Meng, prominent figures in the battery field. The company develops advanced sodium-ion batteries to power ...

Because of this, he claims, Unigrid's battery packs can be built to the same size as lithium-ion, offer the same power output, and be hooked up to the same electronic systems. He added that sodium-ion batteries are less likely to go into thermal runaway than their lithium-ion counterparts. Thermal runaway can lead to batteries catching fire.

This collaboration combines Unigrid's energy-dense, safe sodium-ion battery chemistry that is free of critical and rare materials, and Nascent's expertise in battery management system (BMS) and energy storage system (ESS) integration.

UNIGRID Battery, a startup spin-off from the University of California, San Diego, announces that it has received the first commercial MWh-scale orders for its advanced tin-electrode sodium ion batteries. The company was founded in 2021 by the innovative research work of Doctors Tan and Wu.

UNIGRID Battery announces \$12 Million Series A round News provided by UNIGRID Battery Jun 13, 2024, 11:29 AM ET, /PRNewswire/ -- UNIGRID Battery, a San Diego-based startup developing advanced sodium-ion batteries, today announced a successful close of an oversubscribed \$12 Million Series A funding round.

UNIGRID Battery's Milestone. UNIGRID Battery, a spin-off from the University of California, San Diego, has achieved a significant milestone by receiving its first commercial MWh-scale purchase orders for their advanced sodium-ion batteries. Founded in 2021, the company is rooted in the pioneering Ph.D. research of Dr. Darren H. S. Tan and Dr. Erik A. ...

Unigrid Battery, Inc., a San Diego, California-based startup that develops advanced sodium-ion batteries, received an investment from LG Technology Ventures. The amount of the deal was not disclosed. The company intends to use the funds to accelerate its product commercialization and build upon existing industry partnerships to deploy its ...

UNIGRID Battery, a San Diego-based startup focusing on advanced sodium-ion batteries, has successfully closed an oversubscribed \$12 million Series A funding round. The financing was co-led by Transition VC and Ritz Venture Capital.

UNIGRID Inc., a California-based startup that develops advanced sodium-ion batteries, announces that it has received an investment from LG Technology Ventures. This investment is part of LG Technology Ventures' dedication to creating value in promising startup companies and helping them develop strategic partnerships with LG Companies.

SAN DIEGO, June 13, 2024 -- UNIGRID Battery, a San Diego-based startup developing advanced sodium-ion batteries, today announced a successful close of an oversubscribed \$12 Million Series A ...

UNIGRID Battery, a University of California, San Diego spin-off company, was founded in 2021 from the groundbreaking Ph.D. research work by Dr. Darren H. S. Tan and Dr. Erik A. Wu, who were both ...
