

The solar array is made up of Solar World solar panels, which is our preferred solar panel manufacturer from the USA. The mounting has been developed by Pacific Solar & Photovoltaics and is structurally engineered to withstand typhoon winds up to 170mph sustained winds, which meets Guam's building code requirements.

In Guam, homeowners and businesses can benefit from several state and local government incentives to install solar panels and battery storage systems. The Guam Power Authority (GPA) offers a Net Metering Program, which allows solar system owners to receive credits for the excess electricity they generate and feed back into the grid.

Guam and Micronesia's source for residential and commercial green energy solutions. We design and build high-efficiency, cost effective solar panel systems. Lower your carbon foot print, increase the value of your home or business, and SAVE MONEY!
