

Who is solar energy Papua New Guinea?

We are Papua New Guinea's leading solar energy company, providing high quality solar services for your home or business through renewable energy. WHY USE SOLAR? Despite huge popularity in the rest of the world solar power has yet to take off in PNG.

Are Papua New Guinea's first electric vehicles coming to Port Moresby?

Papua New Guinea's first plug-in electric vehicles (EVs) - two cargo vans and a passenger bus - have appeared on the streets of Port Moresby. Ruby Gamoga reports. Improved access to finance could the rapid development of solar power, according to Jon Pittar, Managing Director of solar provider, Solar Solutions PNG.

Will PPL develop a dynamic model for the Port Moresby grid?

The Solar Energy Association backs the Independent Power Producers of PNG (IP3) proposal to develop a dynamic model for the Port Moresby grid. This model would help PPL with high level management of grid resources and assist with future integration of solar.

Will new LNG power stations reduce diesel use in Port Moresby?

In Port Moresby, we have seen two big new LNG power stations at Dirio and NiuPower, which should reduce the use of diesel at Kanudi and Moitaka with a correlating emissions reduction.

Whether your project is 5kW for your house, or 5MW for a solar farm, contact us today for our Certified Solar Energy Systems Design team to start on your project. Whether you already know what you need or you are still learning, reach out to us.

What progress has solar energy made in Papua New Guinea and what is its potential, particularly for business? Christian Lohberger, President and founder of the Solar Energy Association of PNG and co-founder of Astra Solar Ltd, shares his views with Business Advantage PNG.

Sola PayGo's self-installing power kits include: a solar panel, lithium battery, up to four lights, mobile phone charger, torch and radio (optional). Once they have one of these kits installed, ...

A new report from ANZ encourages Papua New Guinea to ditch diesel power generation in favour of cheaper energy technologies such as solar PV, micro-hydro and biomass. Currently, PNG's energy mix is primarily oil (49%), biomass (39%), hydropower and geothermal (10%) and ...

At PNG Solar Supply, we want to provide you with the tools you need to set up your solar systems. We are an experienced Papua New Guinean owned business focused on offering products from diverse manufacturers to best suite your needs. We have a team that is able to help with design, and we handle everything for you.

These solar solutions come in set kits that included lights, battery boxes and a solar panel ranging from small 5 volts panel to a 12 volts panel which is the largest of the kit. We also sell other solar products like solar panels, invertors, solar controllers, solar cables, solar batteries and lights.

For domestic emissions, electricity in PNG is largely zero-emission hydropower but you also have some highly polluting diesel generators contributing to energy production in Port Moresby and most of the provincial capitals (C-Centres). In Port Moresby, we have seen two big new LNG power stations at Dirio and NiuPower, which should reduce the use of diesel at ...
