

As a leading global investor in the infrastructure asset class investing since 2004, we provide you with an opportunity to invest directly in equity and debt infrastructure assets, and indirectly via fund-of-fund solutions as well as individually managed accounts with a focus on operational infrastructure assets in OECD countries.

Energy storage and EV infrastructure solutions firm NHOA has commissioned a 31MWh battery energy storage system (BESS) in Peru for multinational utility and IPP Engie. The BESS unit was provided by NHOA to Engie Energy & Peru; on a turnkey basis and has been deployed at Engie's 800MW ChilcaUno thermoelectric power plant, in Chilca, on the ...

The BESS project will have an installed capacity of around 30 MWh, which will be installed at ENGIE Energy & Peru's ChilcaUno Thermoelectric Power Plant, and will allow the plant to operate at full capacity, which translates into more efficient energy for the country, as well as contributing to improve the stability of the national power ...

The firm will optimise the charge and discharge of four battery energy storage system (BESS) projects for UBS Asset Management's Real Estate & Private Markets, all of which will come online between August and December 2024. ... Energy-Storage.news" publisher Solar Media will host the 1st Energy Storage Summit Australia, on 21-22 May 2024 in ...

Discover sustainable energy with UBS Asset Management. Learn how energy storage can decrease fossil fuel reliance. Find out more today. Renewable energy may be clean and cheap, but also intermittent. Now, as energy storage has become an economical and sustainable energy source, the reliance on coal, gas or nuclear could be significantly ...

Top 10 with REPM Private Markets experts on energy storage. Interview with our infrastructure experts on energy storage Skip Links. Content Area Main Navigation. Asset Management ...

4 ???&#0183; Over 100 countries and organisations have already committed to COP29 Global Energy Storage and Grids Pledge. Brussels/London, 11 December 2024: ... Pakistan, ...

Similarly, back in 2022 UBS Asset Management said it had acquired a 700MW portfolio of BESS projects from the pipeline of developer Black Mountain Energy Storage. Energy-Storage.news has asked if this again refers to the same portfolio, and whether Canadian Solar's integration arm CSI Solar, with which UBS AM signed a 2.6GWh BESS supply deal ...

The list of projects is therefore long and includes a wide variety of initiatives, technologies and mitigation measures alongside the hundreds of (mostly) solar-plus-storage microgrids, including enhancements to the

grid from software to high voltage DC hardware level, better integration of distributed energy resources (DER), direct wildfire ...

Alex joined UBS-AM in April 2018. In his current role, he conducts macro and fundamental research on the infrastructure markets, identifies investment opportunities, and develops new investment strategies. Alex is a member of the Investment Committee of UBS's infrastructure equity and energy storage strategies.

The project has an energy storage capacity of 1MWh with a discharge capacity of 1.2MW of steam. It has been built at a port facility owned by Semco Maritime, a construction and engineering firm. ... Eos Energy Enterprises closes a US Department of Energy loan deal, UBS picks an AI-driven asset optimiser and financial close for a solar-plus ...

The parent company said CSI Solar's CSI Energy Storage division will supply "up to 2.6GWh" of battery storage systems for projects in North America for UBS Asset Management's Real Estate and Private Markets ...

The facility, known as Chilca-BESS, is made up of 84 cabinets of lithium-ion batteries. Now in commercial operation, it is the largest energy storage system of its kind in Peru, according to the Peruvian ministry of energy and mining.

The BESS project will have an installed capacity of around 30 MWh, which will be installed at ENGIE Energ&#237;a Per&#250;'s ChilcaUno Thermoelectric Power Plant, and will allow ...

Energy storage and EV infrastructure solutions firm NHOA has commissioned a 31MWh battery energy storage system (BESS) in Peru for multinational utility and IPP Engie. The BESS unit was provided by NHOA to Engie Energ&#237;a Per&#250;; on a turnkey basis and has been deployed at Engie's 800MW ChilcaUno thermoelectric power

UBS Asset Management was advised on the transaction by Troutman Pepper, Clean Energy Counsel, and Euclid Power. BMES has now sold 1,200MW of energy storage projects for delivery in ERCOT in 2024 in the last two months, with a total energy capacity of at least 1,700MWh, assuming that UBS' acquired projects have a discharge of at least one hour.
