

Are solar leases and PPAs a scam?

No, not all leases and PPAs are scams. However, they seem to be a breeding ground for deceptive and predatory practices, including the old "government is paying people to go solar" scam. Related reading: Solar Leases vs. Solar Loans vs. Solar PPAs

Are homeowners paying for solar panels in a lease or PPA?

In short, free solar panel ads are typically for leases and power purchase agreements (PPAs). These arrangements are basically long-term solar system rentals in which the solar company owns the panels and homeowners pay a monthly fee in lieu of their electricity bill. So, are homeowners technically paying for solar panels in a lease or PPA? No.

What if a solar installation is not a good idea?

Unscrupulous solar companies may employ aggressive or dishonest sales tactics to close deals quickly, especially if the proposed solar installation isn't in your best interest. These tactics can include: Be cautious of any salesperson who uses these tactics or seems unwilling to provide detailed information about the proposed solar system.

Should you choose a reputable solar energy company?

When temperatures rise, utility costs do, too. While reputable companies can help you save money with clean or solar energy improvements, scammers offer more than they can deliver.

New PV installations grew by 87%, and accounted for 78% of the 576 GW of new renewable capacity added. 21 Even with this growth, solar power accounted for 18.2% of renewable power production, and only 5.5% of global power ...
