

Does bird X prevent pests from getting under solar panels?

Bird-X's Solar Mesh Kit creates a physical barrier that excludes pest birds from getting underneath solar panels and causing damage. When installed properly, the product is 100% effective. Humanely eliminate pest damage to solar panels, electrical wiring and roof

How do I keep birds and rodents out of my solar panels?

To keep birds and rodents from accessing your solar panels, use our Solar Panel Exclusion Clips to attach our coated wire mesh to the panels. This will prevent them from gaining access underneath and causing damage.

Are solar panels safe for birds?

Solar panels are being installed on commercial and residential roofs across America at an ever-increasing rate. These arrays provide perfect harborage for birds and other critters, and homeowners are desperate for a solution. These kits include PVC coated metal mesh, and enough clips to secure the mesh to the panels.

Does mesh wire repel pigeons?

A: The mesh wire is thin enough to easily mold with just your hand but thick enough to retain its shape and repel pigeons. Helpful?
