

How can Palmetto help you remove and reinstall solar panels?

At Palmetto, our solar professionals are here to help you remove and reinstall solar panels. They can review your situation, provide helpful guidance to ensure your panels are cared for, take care of fixing your home and panels, and make sure your solar power system is reinstalled properly.

Should I remove or reinstall my solar panels?

Solar removal and reinstallation may also be necessary when you're moving to a new home, and you wish to relocate your system. If that is the case, make sure you have a trained installer handle the entire job so it's done safely and securely to protect your investment. [Can I Remove and Reinstall My Solar Panels Myself?](#)

Should you remove solar panels when not generating power?

Cover the Solar Panel: Even though you should disconnect solar panels at hours when they are not generating power, you should always try to cover them with opaque cloths before removing them. Doing this will ensure no solar generation, making it safer to disconnect the modules.

Can a solar panel be removed from a roof?

Thus, it's best to have your solar panel system removed by trained solar professionals who have the knowledge and equipment to do the job right. While repairing many parts of your solar power system can be done on the roof, it is often much safer to do this work after the panels are removed.

Why should you hire a solar panel removal service?

A solar panel system is an intricate and complex power plant with electrical connections that only solar experts should handle. Considering a solar panel system is a large investment, it makes sense to only let experienced solar installers handle your solar panels and perform this solar panel removal service.
