

What is a solar panel warranty?

Solar panel warranties vary by manufacturer and type of panel. A standard solar panel warranty should come with at least 10 years of protection. Solar panel warranties typically won't reimburse for labor costs associated with installing new equipment or shipping fees for new equipment.

Can a solar panel warranty be voided?

For example, warranties may be voided if the solar panels are not installed according to specified guidelines or if unauthorized modifications are made. Certain solar panel warranties might not cover fire damage or other outside sources.

Which solar panel has the best warranty?

Comparisons should focus on product warranty terms, power guarantees, labor warranty terms, transferability and bankability, and the availability of an extended warranty. Based on our ranking system, Panasonic has the strongest overall warranty, with REC and Qcells close behind. Why are solar panel warranties important?

Does SunPower offer a warranty?

Labor, shipping, parts, we've got you covered. SunPower's comprehensive product and power coverage includes a 25 year warranty for everything on your roof (including panels, microinverters and racking) and 10 years for everything not on your roof (storage and monitoring). Find out your savings potential by switching to solar.

Does a solar panel warranty cover labor costs?

Solar panel warranties typically won't reimburse for labor costs associated with installing new equipment or shipping fees for new equipment. Comparisons should focus on product warranty terms, power guarantees, labor warranty terms, transferability and bankability, and the availability of an extended warranty.
