

Are free solar panels a scam?

Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more. Or check out the Department of Treasury's guidance on clean energy.

Are solar panel scams common in Florida and California?

Solar panel scams in Florida and California are quite common, as they are in any region where solar energy is popular and incentives are provided. Scammers take advantage of people's limited knowledge about solar systems, providing misleading information that makes it hard for victims to recognize the scam.

Are solar panels eco-friendly?

Solar panels offer a low-maintenance solution for sustainable energy. While harnessing solar energy is a green initiative, some people worry about the eco-friendliness of solar panel production. However, solar panels often offset the energy used in their manufacture within one to four years of operation.

Are you getting ripped off when buying solar panels?

Solar is expensive, no matter how you shake it. And savings sound nice, but if you get stuck with an overpriced solar panel system that's underperforming, you're going to save much less. That's why we put together these tips to avoid getting ripped off when buying solar panels -- backed by expert advice.

Are solar panels free?

There's no such thing as free solar panels. There are no federal government giveaways for solar panel installations, and no company is required to offer them for free. You may be eligible for a solar tax credit of up to 30% of the cost of installing a system, but that doesn't make it free.

Are solar panels worth it?

On the other hand, a legitimate company will tell you if solar panels won't be worth it for you (whether it's because your roof is too shaded or small, or for some other reason).
