about 80 applications from which they are choosing eight, and the total sum would be 60 million [dollars] overall ... which they will lend in this particular year." ... University of Guyana students tour Solar Photovoltaic Power ...

Official opening of the Union Island Solar Photovoltaic and battery energy storage facility Official opening of the Lowmans Bay Power Plant as part of activities to commemorate the 50 th ... VINLEC signed an agreement with the government of St. Vincent and the Grenadines to supply electricity to Bequia . 1962 . 2nd Hydro Station: Richmond ...

Saint Vincent and the Grenadines: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic.

If the drilling is successful--Saint Vincent is in a geothermal zone and has an active volcano--the country hopes to be about 75 percent renewable by 2021, Dacon said in an interview last November. For the smaller islands, which now get their electricity from diesel power stations, solar energy is the go-to solution.

The Caribbean Development Bank has approved financing of \$8.6 million for solar energy development on St Vincent and the Grenadines. The financing to St Vincent Electricity Services Ltd (Vinlec) is for the supply and installation of solar photovoltaic (PV) systems at company buildings in the vicinity of the Argyle International Airport.
