

Pope Francis has unveiled a plan to transition Vatican City to solar energy as its primary source of electricity in his latest motu proprio "Fratello Sole" or "Brother Sun." The Holy Father has directed the construction of an agrivoltaic system on Vatican-owned land in Santa Maria di Galeria, located just outside Rome.

Pope Francis has renewables on his mind as he says he wants Vatican City to run on solar power. To achieve his aim, solar panels will be installed on a Vatican-owned property outside Rome.

Providing energy for Vatican City State. The agrivoltaic plant will make use of the Holy See's property at Santa Maria di Galeria. Located on the edge of Rome, the 424-hectare site houses the transmission facilities for Vatican Radio, thanks to a 1951 agreement between the Holy See and the Italian State.

In additional comments provided to Energy-Storage.news, Keefe said: "Our announcement shows battery energy storage now achieving scale and impact. We showed we are driving energy storage into the mainstream in the capital markets. Energy storage is growing at a 23% CAGR through 2030--that is 150% of tech."

In a suite of efforts, Pope Francis has now declared to the Vatican authorities to carry out the next step: to begin constructing a solar plant within the extraterritorial zone of Santa Maria di...
