

How much does electricity cost in Saint Lucia?

The 2015 electricity rates in Saint Lucia are \$0.34 per kilowatt-hour (kWh), in line with the Caribbean regional average of \$0.33/kWh. Like many island nations, Saint Lucia is almost 100% reliant on imported fossil fuels for electricity generation, leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.

What is the energy potential of Saint Lucia?

Saint Lucia is a volcanic windward island, with large technical potential for geothermal, wind, and solar renewable energy generation, as well as use of solid waste generated by residents. Little technical potential for biomass or hydroelectric generation exists on the island.

Is biomass a source of electricity in Saint Lucia?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Saint Lucia: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

Is Saint Lucia reliant on fossil fuels for electricity generation?

Like many island nations, Saint Lucia is almost 100% reliant on imported fossil fuels for electricity generation, leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity. Electricity Sector Data

How much geothermal potential does Saint Lucia have?

The volcano that sits in the middle of Saint Lucia provides vast geothermal potential. Conservative estimates indicate more than 30 MW of technical geothermal potential; others estimate 170 MW. Estimates also show that development of this geothermal resource would likely be economically feasible.

Is LUCELEC's metering infrastructure reducing Saint Lucia's electrical losses?

Advanced metering infrastructure installed across 20% of LUCELEC's customer base in 2010 reduced technical and nontechnical electrical losses. Despite these efforts, Saint Lucia's transmission losses remain moderately high at more than 9%.
