

We team up with landowners to create successful projects that maximise local environmental, social, and economic benefits, while transforming the way the world produces and consumes energy. If you are a landowner and would like to talk to RES please complete this form and someone from the team will be in touch.

This hybrid BESS is Poland's largest-scale battery energy storage system, which combines high-output lithium-ion batteries with high-capacity lead-acid storage batteries, a combination to obtain high performance at low cost.

Kawasaki, Japan -- Toshiba Energy Systems & Solutions Corporation (Toshiba ESS) and its affiliate, Toshiba International (Europe) Ltd. (hereinafter "TIL"), have signed a Memorandum of Understanding (MoU) with Rockfin sp. z o.o. (Rockfin), a manufacturer of auxiliary equipment for steam turbines and generators (STGs), and EthosEnergy Poland ...

Equinor and Polenergia have selected Hitachi Energy to deliver electrical systems infrastructure for the MFW Baltyk II and MFW Baltyk III offshore wind projects in Poland. ... We look forward to working with Hitachi Energy in Poland and their local subcontractors on bringing this competitive source of renewable energy to Poland," said Michal ...

In June 2022, the European Commission announced that it has made 2.4 billion euro available to seven countries under a modernization fund to modernize their energy systems and reduce greenhouse gas emissions from energy, industry, and transport. Poland is to receive 244.2 million euros from this pool to improve energy efficiency in industry.

The future energy profile in Poland will pivot toward renewable sources and other technologies. Wind and solar installations are spreading across the country, with offshore wind and other locally-produced energy concentrated along the northern Polish coast. The rise of renewables in Poland

The announcement follows a recent global agreement between Hitachi Energy and Equinor to collaborate on high-voltage transmission systems (AC and DC) to connect Equinor offshore wind farms and production facilities to mainland power grids worldwide. \*1 Global Wind Energy Council - Global Offshore Wind Report 2022 Grid-eXpand web site
