

Is solar power a growing source of energy in Portugal?

Solar power is a growing source in the Portuguese energy mix. At the end of 2020, solar power installed capacity totalled 1.03 GW and represented 3.6% of total power generation in 2020. Portugal has set a goal of between 8.1 GW and 9.9 GW in installed capacity by 2030.

What is Portugal's commitment to photovoltaic energy?

Portugal's commitment, as underscored by Decree-Law No. 162/2019, facilitates the adoption of PV technology, allowing residents and businesses alike to tap into the sun's inexhaustible energy. Why Photovoltaic Energy? This innovative approach to energy generation is about transforming how we consume energy.

What is the largest solar power plant in Portugal?

On 9 October 2021, the largest solar power plant in Portugal was inaugurated in Alcútem. With an installed capacity of 219 MW, the power plant has 661,500 solar panels and can power the needs of 200,000 homes. It occupies an area of 320 hectares and will prevent the emission of 326,000 tons of carbon dioxide every year.

When will small scale solar installations come to Portugal?

In addition to tenders for large scale power plants, Portugal has set a framework for the installation of small scale rooftop solar installations which came into force in January 2020.

Will there be a solar auction in Portugal?

Solar power interest is growing exponentially in Portugal. João Galamba, the State Secretary for Energy, announced that more solar auctions would take place, including one in the second quarter of 2020 as well as that there were over 80,000 MW (80 GW) in projects awaiting analysis and approval.

Who is Malogica Solar?

In a stride towards sustainability, Malogica Solar is at the forefront of the renewable energy revolution in Portugal and Spain, focusing on advanced energy storage and photovoltaic solutions for homes, businesses, and industries.

Whether you own a home in Portugal for personal use or as a holiday rental, solar panels Portugal present a sustainable, cost-effective solution to managing energy consumption and reducing costs. For international clients living in the Algarve, the combination of sunny weather, government incentives, and technological advancements in solar ...

Omexom is a system integrator for ground-mounted and floating utility-scales photovoltaic power plants. Positioned as an integrator and independent from suppliers, we are a recognized international partner in the construction of turnkey solar PV projects.

Boasting an average of 3,000 hours of sunshine per year, this area offers the perfect environment for maximum energy generation. Benefit from clean, sustainable energy while saving money. Get in touch with us today to learn more about our solutions for ...

As one of the leading solar companies in Portugal, we offer solar power solutions to meet all our client's energy needs. Whether you want to power your home with sustainable energy from the sun, install a solar carport or just want to buy ...

Portugal's abundant sunshine and government incentives make solar a smart investment. By choosing a reputable installer and exploring financing options, you can harness clean energy, reduce your electricity bills, and contribute to a sustainable future.

On 9 October 2021, the largest solar power plant in Portugal was inaugurated in Alcútem. With an installed capacity of 219 MW, the power plant has 661,500 solar panels and can power the needs of 200,000 homes. It occupies an area of 320 hectares and will prevent the emission of 326,000 tons of carbon dioxide every year.
