Power Gears is an European manufacturer of gear for outfitting all kinds of functional fitness and CrossFit®; gyms. LIFT HEAVY. FEEL GOOD. ®;dern®;cka 9, Bratislava, Slovakia 85101

Gear devices can change the speed, torque, and direction of a power source. Gears of different sizes produce a change in torque, creating a mechanical advantage, through their gear ratio, and thus may be considered a simple machine. The rotational speeds, and the torques, of two meshing gears differ in proportion to their diameters.

After months of intensive work we're proud to announce the launch of the new Power Gears e-shop, ready for Europe! From now on you can order our products not only from Slovakia and Czech republic, but from Austria, Hungary, Germany, Poland, Romania, states of Benelux, Great Britain and Ireland, Italy, France, Spain and Portugal as well.

Power Gears Europe is a strength & conditioning equipment brand for people looking for high quality products for their commercial facilities or home Gyms. PG covers everything from fitness flooring and essentials like dumbbells, kettlebells, medicine balls through barbells and plates all the way to custom produced rigs and racks.

Today S.T.M., using modern design systems and high-tech production machineries (working centres, gear cutters, and sophisticated grinding centres), can offer a wide range of speed reducers, electric motors, mechanical and electronic variators.
