

What are the solar photovoltaic systems in Trinidad and Tobago?

In Trinidad and Tobago and the wider Caribbean there is an abundance of natural energy from the sun. In Trinidad and Tobago a typical day can be insolated for 5-6 hours of sunlight. This makes the Solar photovoltaic (PV) systems very applicable for Trinidad and Tobago. The cost for these systems are constantly coming down.

Is Trinidad ready for more solar power?

Every person involved in the process has certified solar installation training. Didn't know that was a thing in Trinidad, right? We're definitely ready for more solar power to make a better, more eco-friendly and sustainable world for us all. We understand that solar power is a bit more expensive than other power systems.

Is solar a good investment for your business?

Investing in solar panel installation and services could allow you to save money on utilities, while also cutting down on your carbon footprint.. Solar energy improves the bottom line for your business, and so much more. By powering part or all of your business with solar, you lock in the price of that energy.

We offer the widest range of solar powered products right here in Trinidad and Tobago. From solar generators to solar water heaters, solar water pumps, solar AC units, street lights, water purification systems and more.

While Solar PV is readily available in Trinidad and Tobago, irradiated heat is also available in abundance. To supplement solar PV which uses the sunlight to produce electricity, we also provide solutions which capture the Sun's heat and convert it to electrical energy.
