

The current edition of our product catalog contains a complete overview of our PowerBox Systems products, as well as more information about the PowerBox-Systems company. We would be delighted to send you a printed version. Please use the form below for this.

I too fly Powerbox Core and Powerbox equipment in my jets. I'll say this, your setup with an ix20 and Powersafe receiver is similar in many respects to a Powerbox system. The central unit is a dual power input power distribution box and each satellite is a unique receiver all with a power safe switch, that is it fails on if there's a switch ...

The PowerBox Evo supports all current telemetry systems: PowerBox, Jeti, Futaba, Multiplex, Graupner, Spektrum and JR, which means that the voltage of both batteries can be monitored conveniently from the transmitter. It is also possible to read off the state of charge of the batteries at any time using the two tri-colour LEDs.

PowerBox-Systems GmbH has been setting standards for modern and safe power supplies in model making since the company was founded. Around 20 employees now work with passion in development, production, service and administration. We can proudly claim that many of our innovations, ideas and product developments have become an integral part of modern model ...
