

Solar Nc est constituée de professionnels dédiés à l'élaboration et au montage de solutions photovoltaïques pour l'ensemble des clients Calédoniens. Récemment, nous avons rejoint l'autoconsommation au sein du cluster des énergies renouvelables Synergie et vice-président de la FPPV, nous oeuvrons au bon fonctionnement de la filière solaire ...

The 17,000-sq-metre (183,000-sq-foot) system comprises about 10,000 solar panels, which can ultimately generate 3 million kWh of clean electricity each year, sufficient for 1,000 homes. That is a pilot solar project rolled out on the island, currently exploring alternative energy solutions for the region's remote locations.

Nouméa, New Caledonia, located at latitude -22.2734912 and longitude 166.4480887, is a suitable location for solar power generation due to its consistent sunlight exposure throughout the year and distinct wet and dry seasons.

Since 2007, AMBI Energy SAS has designed, built and maintained photovoltaic solutions in New Caledonia and the Pacific. Our proven experience and know-how allow us to propose you efficient and reliable technologies, designed to last over time.

New Caledonian solar panel installers - showing companies in New Caledonia that undertake solar panel installation, including rooftop and standalone solar systems. 4 installers based in New Caledonia are listed below.

Since 2007, AMBI Energy SAS has designed, built and maintained photovoltaic solutions in New Caledonia and the Pacific. Our proven experience and know-how allow us to propose you ...

Total Quadran now manages 7 solar power plants in New Caledonia with a cumulative capacity of 50MW. This latest New Caledonia solar project is the second Boulouparis project, joining a 11 MW project commissioned in 2017.
