

Is it illegal to use a generator?

There is nothing illegal about supplying your household with electricity by this use, just as you could if you lost electricity in any number of other ways (storms, grid failure, etc.) However, if the generator is extremely loud and there is no emergency, there may be a local ordinance against excessive noise.

Is off-grid solar legal in New York State?

Off-grid solar is illegal in many areas in New York State. However, some laws allow individuals or groups to install their own "microgrid" and thus qualify as their own utility. Unfortunately, these laws are still vague, and most individuals will have difficulty using the microgrid laws to live off-grid.

Will California ban portable generators?

It's Official: Generator Ban Passes in California Posted by Abby Epperson | Dec 10, 2021 | News The California Air Resources Board (CARB) passed a regulation aimed at "Small Off-Road Engines" on Thursday that will ban the sale of portable generators in the state -- which includes generators mounted in recreational vehicles.

Are solar panels legal in all 50 states?
