The Mayreau Microgrid Solar Project is in its final stage, which is the testing and commissioning of the solar photovoltaic (PV) and Battery Storage system. St. Vincent Electricity Services Limited (VINLEC) and the Rocky Mountain Institute - Carbon War Room (RMI-CWR) partnered on this initiative which introduced renewable energy for electricity ...

The Caribbean Development Bank has approved financing of \$8.6 million to St Vincent Electricity Services Ltd (Vinlec) for the supply and installation of solar photovoltaic (PV) systems at company buildings in the ...

A photovoltaic system will be added to the generation mix on Union Island in keeping with a mandate by the Government of St Vincent and the Grenadines (SVG) and St Vincent Electricity Services Limited (VINLEC) to ...

The Commissioning of the Union Island Solar PV and Battery Energy Storage System on March 25, has been hailed as a significant milestone in the energy sector of St Vincent and the Grenadines. Officials and stakeholders involved in the local energy sector have said this project is a game changer which is expected to bring numerous benefits ...

The project sets a strong precedent for using renewable energy to drive down energy costs on the outer islands. Located on Union Island, the 600kW solar PV plant is connected to a 637 kilowatt-hour (kWh) lithium-ion battery, extending its generating capacity to supply all of Union Island's daytime power requirements.

Utility Battery Storage and Grid-connected Solar PV (CDB-2020-SOLARPVSVG) ... Countries . St. Vincent and the Grenadines; Geographic location where the impacts of the investment may be experienced. Specific Location . Argyle (Johnson Hill), Cane Hall, Kingstown (VINLEC's headquarters) ... St. Vincent Electricity

Services Ltd. (VINLEC) A ...

The Caribbean Development Bank has approved financing of \$8.6 million to St Vincent Electricity Services Ltd (Vinlec) for the supply and installation of solar photovoltaic (PV) systems at company buildings in the vicinity of the Argyle International Airport.

A photovoltaic system will be added to the generation mix on Union Island in keeping with a mandate by the Government of St Vincent and the Grenadines (SVG) and St Vincent Electricity Services Limited (VINLEC) to increase the penetration of renewable energy in the production of electricity.

The Commissioning of the Union Island Solar PV and Battery Energy Storage System on Monday 25th March 2019 has been hailed as a significant milestone in the energy sector of Saint Vincent and the Grenadines.

Objective: Demonstrate the use of commercial scale Photo Voltaic (PV) systems in SVG through a pilot project and disseminate the results throughout the Caribbean region. Solar PV Capacity: 200 kW. Location: Saint Vincent and Grenadines Community College Department of Technical and Vocational Education. Project Value: USD 600K. Business Model ...
