How many solar PV community solar gardens are there in Barbados?

Blue Circle Energy has over 40 solar PV Community Solar Gardens under development in Barbados, ranging in size from 250kW to 5MW. The project sites are distributed throughout the island, are located in each of Barbados' 11 parishes, and are sited and scaled to integrate with the community's natural and agricultural heritage.

Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is "high". If you could purchase a ... Continue reading ->

What is the installed solar PV capacity in Barbados?

The total installed solar PV capacity in Barbados is about 22MW (12MW RER + 10MW utility).

After a project passes due diligence it is hosted on the Sun Exchange buy-to-lease solar marketplace. Solar cells can typically be purchased for US\$4-5 per cell. These are then leased to the project. Solar Cell Installation. When all solar cells have been purchased, a local construction partner installs the solar photovoltaic system.

According to the International Renewable Energy Agency, 95% of Barbados' energy supply was imported in 2020. Oil provided the most significant energy supply at 92%, followed by renewables at 5% and gas at 3%. Bioenergy and solar were the largest renewable energy generators at 62% and 38%, respectively.

With CloudSolar, you can purchase digital solar panels in low-cost, diversified solar farms all across Barbados. Our business is a new, no-hassle and seamless method to earn money from the sun, without physically having to install a solar ...
