Company Limited (Qatargas), Texas A& M University at Qatar (a Qatar Foundation partner university), and ConocoPhillips Qatar Ltd ...

We are trading in - D2 Diesel Gas Oil D2 is a refinery abbreviation for Gasoil. It is the second distillate from the crude oil, and can be used without reformers and additives. So, the first engines used D2 as fuel -- before petrol cars as we know them today was invented. That is because the engine invented by a German called Diesel, requires no spark plugs. The diesel engine will ...
