

The Q-Sun Solar Onyx Series is renowned for its full-black panels and modern design, specifically crafted for residential photovoltaic markets with high aesthetic and performance demands. The Onyx Series panels feature a pure black surface with no metal grid lines, blending seamlessly with various roofing styles.

These solar panels can be customized to fit any utility-scale application, whether it's a large solar farm or a distributed generation system. By installing utility solar panels from Q-Sun Solar, utilities and large organizations can diversify their energy portfolio and reduce their reliance on ...
