Why are batteries important in raft?

Batteries are very important in the grand scheme of Raft. They are necessary for later upgradesand also save you a lot of effort and manual labor that could be better spent on other tasks. The Solar Panel mod allows you to create and place solar panels to recharge those batteries.

What is a solar panel mod?

The Solar Panel mod allows you to create and place solar panels to recharge those batteries. They are only functional during the day,but you can create a large reserve with enough solar panels and time. This saves your time and resources from having to craft additional batteries or battery chargers.

What can I use to make biofuel in raft?

You can also use any type of seed in these farming plots. Toggle Sprint is a simple mod that does exactly as the name suggests and adds an option to toggle sprint in Raft. Leaves & Co. As Compost The Leaves & Co. As Compost mod makes it so various items such as leaves and feathers can be used to make BioFuel.
