

Does Guinea-Bissau have a dual energy economy?

Guinea-Bissau has a dual energy economy based on domestic wood- fuels and imported oil. About 90% of total energy consumption is accounted for by firewood and charcoal, which are used in almost all households for cooking as well as in traditional rural, commercial and artisanal activities.

What is the consumption of energy in Guinea-Bissau?

?? ... ABSTRACT The consumption of energy in Guinea-Bissau is characterized by a total reliance on imported petroleum fuels for transport, industry and household lighting needs and on woodfuels for almost all household cooking and traditional rural, commercial and artisanal activities.

What is the main source of biomass energy in Guinea Bissau?

The most ancient and still the most used today in African countries, is the wood coal and patches for cooking. In Guinea Bissau, it is the main source of biomass energy but not the only one. GB has recently started trying new application of biomass energy.

Can Guinea Bissau use solar energy?

Table 1: Solar insulation in a horizontal plan in Guinea Bissau With a yearly average of over 5.8 Kwh/m²/day (table 1), GB should be able to take advantage of all solar energy applications.

Is Guinea-Bissau a viable energy resource?

The coast of Guinea-Bissau, with its deeply indented coastline, experiences high tidal range values making this a commercially viable energy resource. The highest mean annual tidal amplitude of 3.4 m was recorded at Porto Gole, on the banks of Rio Geba and could generate 50 MW of electricity (REEEP, 2012); (DICAT, undated).

What techniques are used to produce electricity in Guinea Bissau?

The main techniques used for the production of electricity are dams but there are also other techniques such as: Run-of-the-river hydroelectric, pumped-storage hydroelectricity, Tidal power and wave power¹. Guinea Bissau has an important site for the construction of a dam with a good potential for power generation.

Guinea-Bissau's energy and transport infrastructure are at the core of the recently published Country Strategy Paper 2022-2026. To address Guinea-Bissau's development challenges, the African Development Bank's (AfDB) new strategy will promote economic diversification, structural transformation and lay the foundation for inclusive, resilient and ...
