

How many miles does a Renault Fluence last?

Renault is pretty honest with its advertising and stated 86 summer miles for the Fluence, and 56 miles in winter. For medium-footed persons, this is quite a reasonable estimate.

How far can a Renault Fluence go in winter?

There was one motorway trip during winter where I just did 'normal' motorway speeds ('sharp' 70mph something), plus heating, plus air con and it delivered 45 miles total range. Renault is pretty honest with its advertising and stated 86 summer miles for the Fluence, and 56 miles in winter.

Did the Fluence have a battery-rental model?

My understanding is that the Fluence was sold with the same battery-rental model as the ZOE. Did the Fluence have a minimum state-of-the-art where the battery would be replaced and, if so, has anybody reached that stage and had their battery replaced? I'm thinking about how the ZOE would fare as a long-term prospect with battery hire.
