Can a backup generator be used as a primary power source?

The backup generator is designed as a backup to utility power only and should not be used as a primary power source. Answer a few questions so we can connect you with local dealers who will provide custom quotes. Equipping your home with permanent backup power requires a solution as unique as your home and the way you live in it.

How quiet is the Generac Guardian backup generator?

The Generac Guardian Backup Generator is always ready to supply power to the most important systems of your home by conducting a weekly self-test lasting about five or twelve minutes. This model is fuel-efficient and operates quietly, with the five-minute test cycle producing only 57 decibels of noise.

Which Generac home generator should I buy?

If you're looking for a well-equipped generator for your most commonly used appliances and conveniences, the Generac Guardian 24kW Home Generator is a great option. It offers the most power of all residential air-cooled generators and can be remotely monitored using Generac's Mobile Link Monitoring System.

Can a whole-house generator save you money?

You might have also had to repair frozen and burst pipes, or an unpowered sump pump might have led to a flooded, moldy basement. Those costs can be avoided if you have a whole-house generator. In fact, savings from a single outage can more than recoup your investment in a home generator.
