Reverse Energy Solutions (RES) is an eco-conscious startup led by Daniel Tu, revolutionizing PV module recycling. Our mobile dismantling factory cuts logistics costs by 90%, propelling RES ...

The new wave of clean energy technology has arrived. At Reverse Energy Solutions (RES), our mission is to drive sustainable evolutions in the energy sector. We are committed to pioneering eco-friendly solutions, such as our innovative PV module recycling, to reduce environmental impact and promote a circular economy.

At Reverse Energy Solutions, our vision is to lead the transformation of the solar industry towards full sustainability by making PV module recycling accessible, efficient, and environmentally responsible. We aspire to a future where every solar panel is part of a circular economy, minimizing waste and maximizing the reuse of valuable materials.
