

Who is rich solar?

In 2005,RICH SOLAR began as a solar panel companyand quickly grew into the off-grid solar solutions leader. What put us on the map was our dedication to reasonably priced,high-efficiency solar cell technology,and our commitment to energy independence.

What is a rich solar panel?

Rich solar panels are ideal for RVs and off-grid homes. They are designed to have the same power output as larger panels,but in a smaller size. Rich solar panelsare often used in situations where space is limited. Did you know that solar panels are designed to last from 10 to 30 years? However,durability and shelf life are determined by the rigidity of the panel frame.

Where are Rich Solar panels manufactured?

Although Rich Solar's head office is in Ontario,there is no information available about where their solar panels are manufactured. The majority of solar panels,including those of Rich Solar,are imported from far eastern countries,with approximately 94% of solar panel imports in 2019.

Is rich solar a good company?

Looks great,works great. Rich Solar is the "bomb." Their products are done just right,the work right,and the company is right on the ball. Ordered,shipped,received ... all in several days ... then installed.

What does Rich Solar provide?

Rich Solar is focused on bringing the highest standard of solar products to marketwhile providing excellent customer support. They envision providing the most efficient renewable energy solutionsthat can generate and supply reliable and affordable energy.
