

Is the International Microgrid Symposium 2022?

The last couple of years haven't been kind to the International Microgrid Symposium Series. Number 16, the Singapore 2020 Symposium on Microgrids, became the Singapore 2021. BUT, we're optimistic for 2022, omicron notwithstanding! In the meantime, we're planning a short series of virtual seminars, and here's the second.

Can a microgrid connect and disconnect from the grid?

A microgrid can connect and disconnect from the grid to enable it to operate in both grid-connected or island mode." P.K. Singh "Technical and Economic Potential of Microgrid in California", Humboldt State University, 2017. Generation Controller (BMS, Diesel Control, et.)
